

# integration to

ClickPOS is a retail point of sale system, designed in Melbourne, to manage one or more retail stores. The system is designed to work over the internet which gives users the power to access critical information anywhere internet is available. ClickPOS produces sale and invoice docket to customers, inventory management, customer sales history and reporting. ClickPOS provides for a vast range of industries and can also supply POS hardware to suit your company's needs.

ClickPOS is proud to announce the integration into Xero accounting system. What's unique about Xero accounting is that it is cloud based, just like ClickPOS. It is so easy to integrate, simply search for dates, ClickPOS displays the transactions and then with a click of a button, the data will be transferred directly to Xero.

All the functions you've been waiting for, such as:  
One ClickPOS to many Xero accounts. For those operating multiple stores that want to keep each store or a group of stores as a separate entity, ClickPOS can group a number of stores to one Xero account.
